DEPARTMENT OF COMPUTER SCIENCE

DEPARTMENTAL ACTIVITY - WORLD COMPUTER DAY

Tittle: **WORLD SCIENCE DAY**

Introduction:

World Computer Day is a global celebration of the positive benefits of computers held on February 15th, each year. February 15th was chosen as it was the start-up date for the ENIAC; the world's first all electronic, programmable computer in 1946.

The Theme for World Computer Day 2024 is the "Big Three Computing Advances" after ENIAC

World Computer Day is an annual celebration of computing and the people who make IT happen.

There's much to celebrate this year for World Computer Day, but nothing more important than the celebration of the wizards who brought us next generation computing after the launch of the ENIAC.

Each year has a new theme, new events, new resources, and new friends to be made!

Like "Earth Day", this is a distributed event with people celebrating all over the world in their own location.

Last year, in 2023 the theme was the **Eckert-Mauchly Computer Corporation**, the worlds first company set up to develop commercial, all-electronic computing devices.

Prior year, February 15, 2022 the theme included a deep dive into the revolutionary **6502 chip**; the chip that changed the world, created in Valley Forge, Pennsylvania!

Prior to that, on February 15, 2021, we celebrated the **ENIAC** on World Computer Day; the 75th anniversary of the world's first all-electronic, programmable computer, the ENIAC and www.ENIACDay.org web site.

Take your time, look around, and learn all there is to know about the World Computer Day celebration on February 15th, each year.

DEPARTMENT OF COMPUTER SCIENCE MEETING & RESOLUTION

Dt : 13-02-2024.

*****

The Department of Computer Science with other Colleagues conducted a meeting and made a resolution to the effect of the following agenda.

Agenda:

1. Discussion on Conducting World Computer Day Program in Computer Lab for I BSC(Computer science), II BCom(Computer Applications) & I BCOM(Computer Appliations) students.
2. Arrangements for the Program to be taken care of.

Minutes & Resolution:

1. Conduction of World Computer Day Program.
2. Successful Completion.
3. Student Attendance.

Thank You Sir,

REQUEST FOR PRINCIPAL PERMISSION

DEPARTMENT OF COMPUTER SCIENCE

Dt : 13-02-2024.

Respected Sir,

Sub: Request for Permission to commence **World Computer Day** in Computer Lab as on

15-02-2020.

*****

Department of Computer Science proposed to conduct a **World Computer Day** on 15-02-2020. We are going to explain and educate about Computer filed importance to the I BSC (COMPUTER SCIENCE) ,I BCOM (COMPUTER APPLICATIONS) & II BCOM (COMPUTER APPLICATIONS) students . I BSC (COMPUTER SCIENCE) ,I BCOM (COMPUTER APPLICATIONS) & II BCOM (COMPUTER APPLICATIONS) students of our college were attend in the Computer Lab and they will moderate to design their futures and this World Computer Day **Program important** to achieve their goals successfully . It is very useful program to get knowledge, how to reach easily their goals .

So, Please Permit to Conduct this Program.

Thank You Sir,

DEPARTMENT CIRCULAR

Dt : 14-02-2024.

*****

The Department of Computer Science is going to conduct a World Computer Day Program to I Bsc(CS) , I Bcom(CA) & I I Bcom(CA) students on 2.00 PM, 15-02-2024, in Computer Lab . Therefore all the staff members and students are informed and requested to attend the Inaugural function at 2.00 PM on 15-02-2024.

Thank You all,

Note :

1) This is only for I Bsc(CS), I Bcom(CA) & II Bcom(CA) students.
2) Please take a book & pen for writing important points.

SIGNATURE

Objective :

The concept could have various objectives if established:

1. **Promote Digital Literacy:** One objective could be to raise awareness about the importance of digital literacy and ensure that people of all ages have access to the skills and knowledge needed to effectively use computers and digital technologies.

2. **Celebrate Technological Advancements:** Another objective could be to celebrate the contributions of computers and technology to society, recognizing the advancements that have been made and the potential for future innovation.

3. **Address Digital Inclusion:** World Computer Day could also serve as a platform to address issues of digital inclusion and accessibility, working to bridge the digital divide and ensure that everyone has access to the benefits of technology.

4. **Highlight Ethical Considerations:** The day could also be an opportunity to raise awareness about ethical considerations related to technology, such as privacy, data security, and the responsible use of artificial intelligence.

5. **Encourage Innovation:** World Computer Day could encourage innovation in computing and technology, fostering creativity and collaboration in the development of new tools, applications, and solutions to address global challenges.

6. **Educational Initiatives:** It could also support educational initiatives aimed at inspiring the next generation of computer scientists, engineers, and innovators, encouraging interest in STEM (Science, Technology, Engineering, and Mathematics) fields.

7. **Community Engagement:** Finally, World Computer Day could serve as a platform for community engagement, bringing together individuals, organizations, and governments to discuss and address issues related to technology and its impact on society.

These objectives, if implemented, could help to highlight the importance of computers and technology in our modern world and promote efforts to ensure that everyone can benefit from the opportunities they provide.

Aim :

The aim of World Computer Day, if established, could be multifaceted:

1. **Global Awareness:** To raise global awareness about the significance of computers in modern society and their impact on various aspects of life, including education, healthcare, communication, and industry.

2. **Digital Inclusion:** To advocate for digital inclusion and bridge the digital divide by promoting access to computers and digital technologies for all individuals, regardless of socio-economic status, geography, or background.

3. **Promotion of Digital Literacy:** To emphasize the importance of digital literacy and education in ensuring that individuals have the skills and knowledge needed to effectively use computers and navigate the digital world.

4. **Technological Advancement:** To celebrate technological advancements in computing and highlight the role of innovation in driving progress and solving global challenges.

5. **Ethical Considerations:** To foster discussions about ethical considerations related to technology, such as data privacy, cybersecurity, algorithmic bias, and the responsible use of artificial intelligence.

6. **Education and Skill Development:** To promote educational initiatives and skill development programs aimed at empowering individuals to pursue careers in technology-related fields and contribute to the digital economy.

7. **Community Engagement:** To encourage community engagement and collaboration among stakeholders, including governments, businesses, academia, and civil society, in addressing digital challenges and harnessing the potential of technology for the greater good.

By pursuing these aims, World Computer Day could serve as a platform for advocating for a more inclusive, equitable, and sustainable digital future for all.

Synopsis of World Computer Day:

World Computer Day is a global observance dedicated to celebrating the significance of computers in modern society and promoting digital literacy, inclusion, and innovation. Held annually on [date], this day serves as a platform for raising awareness about the transformative impact of computing technology on various aspects of life.

World Computer Day

on

15-02-2024

Organized By,

J.RAJASRIKANTH MCA,MTech

Lecturer in Computer Science,

CSTS Govt Degree college,

Messege from Chief Guest -Principal

Dear Students, Faculty, and Staff,

Today, we celebrate World Computer Day—a momentous occasion that reminds us of the incredible impact computers have on our lives and the world around us. As your Principal, I am proud to acknowledge the transformative role that technology plays in shaping our educational journey and preparing us for the challenges and opportunities of the future.

On this day, let us reflect on the remarkable advancements in computing technology that have revolutionized every aspect of society—from communication and healthcare to business and entertainment. Computers have become indispensable tools in our quest for knowledge and innovation, enabling us to connect, create, and collaborate in ways that were once unimaginable.

As we embrace the digital age, it is essential that we equip ourselves with the necessary skills and knowledge to navigate this rapidly evolving landscape. Digital literacy is no longer a luxury but a fundamental requirement for success in the 21st century. Therefore, let us seize this opportunity to reaffirm our commitment to promoting digital literacy and ensuring that every member of our community has access to the resources and support they need to thrive in the digital world.

Moreover, let us not forget the ethical considerations that come with the power of technology. As we harness the potential of computers to drive progress and innovation, we must do so responsibly, with a deep sense of integrity and respect for privacy, security, and human rights.

Today, as we celebrate World Computer Day, let us also express our gratitude to the visionaries and pioneers who have paved the way for the remarkable advancements we enjoy today. Their dedication and ingenuity continue to inspire us as we strive to push the boundaries of what is possible with technology.

In conclusion, let us use this day as an opportunity to celebrate the extraordinary capabilities of computers and reaffirm our commitment to harnessing technology for the greater good. Together, let us embrace the possibilities of the digital age and work towards a future where technology serves as a force for positive change in our lives and communities.

Wishing you all a happy World Computer Day!

Warm regards,

Dr. N. Prasad Babu, Principal,

CSTS Govt.Kalasala,

Jangareddigudem

Speaker's Notes

Dear Students, Faculty, and Staff,

As we come together to celebrate World Computer Day, I am honored to share this moment with each o you. Today, we recognize the profound impact that computers have on our lives and the boundles opportunities they offer for learning, innovation, and growth.

In our journey towards academic excellence, technology has become an invaluable ally, empowering u to explore new frontiers of knowledge and creativity. From interactive learning platforms to cutting-edg research tools, computers have revolutionized the way we teach, learn, and collaborate.

As your Vice Principal, I am deeply committed to fostering a culture of digital literacy and innovatio within our school community. Our goal is not only to equip you with the technical skills needed t succeed in the digital age but also to cultivate critical thinking, problem-solving, and creativity—th essential qualities of a well-rounded individual.

As we celebrate World Computer Day, let us also reflect on the ethical responsibilities that come with th use of technology. We must use our digital tools wisely, respecting the rights and privacy of others, ar leveraging technology as a force for positive change in our communities.

In closing, I encourage each of you to seize the opportunities that technology affords us and to continu striving for excellence in all your endeavors. Together, let us harness the power of computers to shape brighter future for ourselves and generations to come.

Wishing you all a joyful and inspiring World Computer Day!

Warm regards,

Sri B.Srinivasarao, Vice Principal
CSTS Govt Degree College, Jangareddiguem

Speakers Message

Dear Students,

As we commemorate World Computer Day, I'm filled with pride and excitement to be part of a community that values the transformative power of technology. Today, we celebrate not just the machines themselves, but the incredible ways in which they shape our lives, our work, and our future.

In our journey together, I've witnessed your curiosity, your determination, and your eagerness to explore the limitless possibilities of computer science. From coding challenges to complex algorithms, each day in our classroom is an opportunity to discover, to learn, and to innovate.

World Computer Day serves as a reminder of the profound impact that computers have on every aspect of our society. They're not just tools; they're catalysts for change, enabling us to solve problems, connect with others, and create solutions that were once beyond our imagination.

As your lecturer, I am committed to empowering you with the skills and knowledge you need to thrive in the digital age. Whether you aspire to be software engineers, data scientists, or cybersecurity experts, know that your journey begins here, in our classroom, where you have the freedom to explore, to experiment, and to grow.

So, as we celebrate World Computer Day, let us embrace innovation, let us embrace collaboration, and let us embrace the boundless opportunities that lie ahead. Together, we have the power to shape a future where technology enriches lives, expands minds, and brings us closer together.

Happy World Computer Day, everyone!

Warm regards,

J.RAJASRIKANTH,,

Lecturer in Computer Science,

CSTS Govt Kalasala, Jangareddigudem

DEPARTMENT OF COMPUTER SCIENCE

World Computer Day

Dt : 15-02-2024

As a part of Department Activity, the department of Computer science is conducted World Computer Day for I BSC(CS), I BCOM(CA) & II BCOM(CA) students in Computer Lab , CSTS Govt. Kalasala, Jangareddigudem. Nearly 40 students were attended very interestingly in this program. This programme is conducted under supervision of Sri J. RjaSrikanth, Lec.in Computer Science, with the permission of Principal Dr.N. Prasad Babu, CSTS Government kalasala, jangareddigudem.

Conclussion:

In conclusion, World Computer Day presents us with a valuable opportunity to reflect on the profound impact of computers on our lives and society as a whole. It serves as a reminder of the remarkable advancements we have achieved in the field of technology and the boundless possibilities that lie ahead.

As we celebrate this day, let us not only acknowledge the role of computers in driving innovation and progress but also recognize the ethical responsibilities that come with our increasing reliance on technology. It is imperative that we use our knowledge and expertise to promote digital inclusion, safeguard data privacy, and address the societal challenges posed by rapid technological advancements.

Moreover, let us reaffirm our commitment to fostering a culture of digital literacy and lifelong learning, ensuring that individuals of all ages and backgrounds have the skills and knowledge to navigate the digital world effectively.
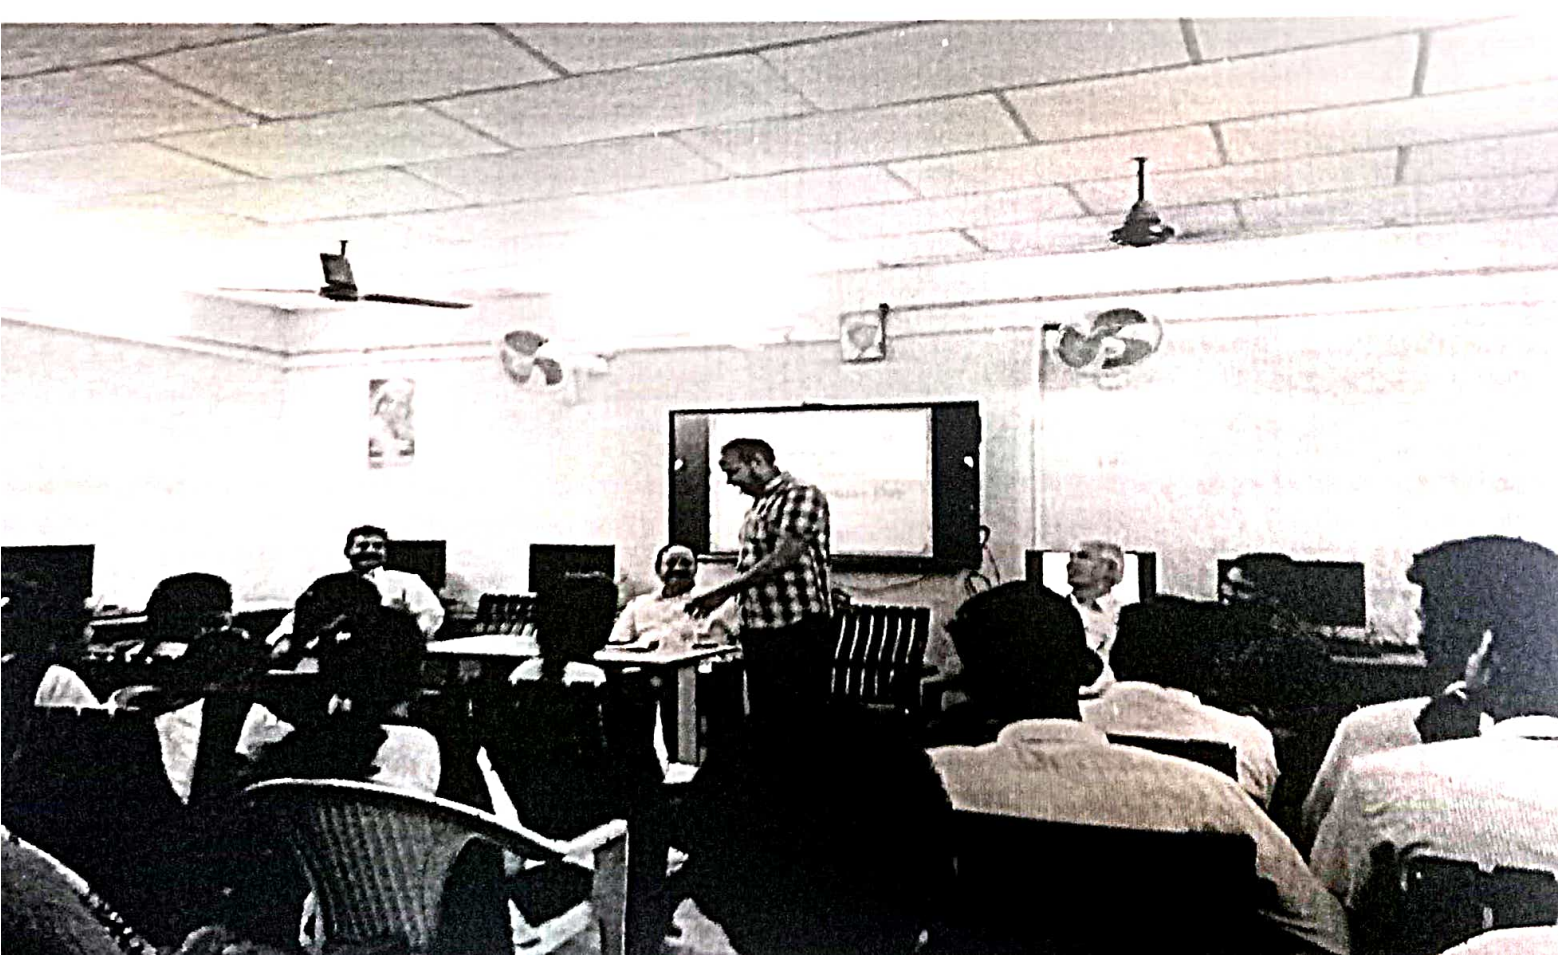

Ultimately, World Computer Day is a reminder that the future is in our hands, and it is up to us to harness the power of technology for the greater good. By embracing innovation, collaboration, and responsible use of technology, we can create a more inclusive, equitable, and sustainable world for generations to come.
