CIRCULAR OF THE PROGRAMME

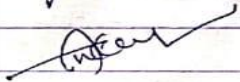

19/03/2024²⁵

March 2024

The department of Botany & Horticulture is going to conduct a National online quiz programme on 'world forest Day' from 21/03/2024.

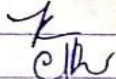

So all the staff members & students are requested to participate in the quiz without fail.

Signature of staff.

Signature of the lecturer

Signature of the principal

WORLD FOREST DAY

On March 21, 2023, the Botany Department of CSTS Government Kalasala organized a national online quiz in commemoration of World Forest Day. Spearheaded by T.Jhansi Rani, lecturer in botany, and supported by Dr. N. Prasad Babu, the principal, the event aimed to raise awareness about the crucial role forests play in maintaining ecological balance and biodiversity.

The participation in the quiz was extensive, with students, lecturers, and others joining in, resulting in a total of 173 responses. This widespread engagement underscored the importance of environmental education within the institution and beyond.

Through the quiz, participants had the opportunity to test their knowledge on various aspects of forestry, including different types of forests, their ecological significance, threats they face, and conservation measures. By actively engaging in the quiz, participants not only expanded their understanding of forests but also demonstrated their commitment to environmental stewardship.

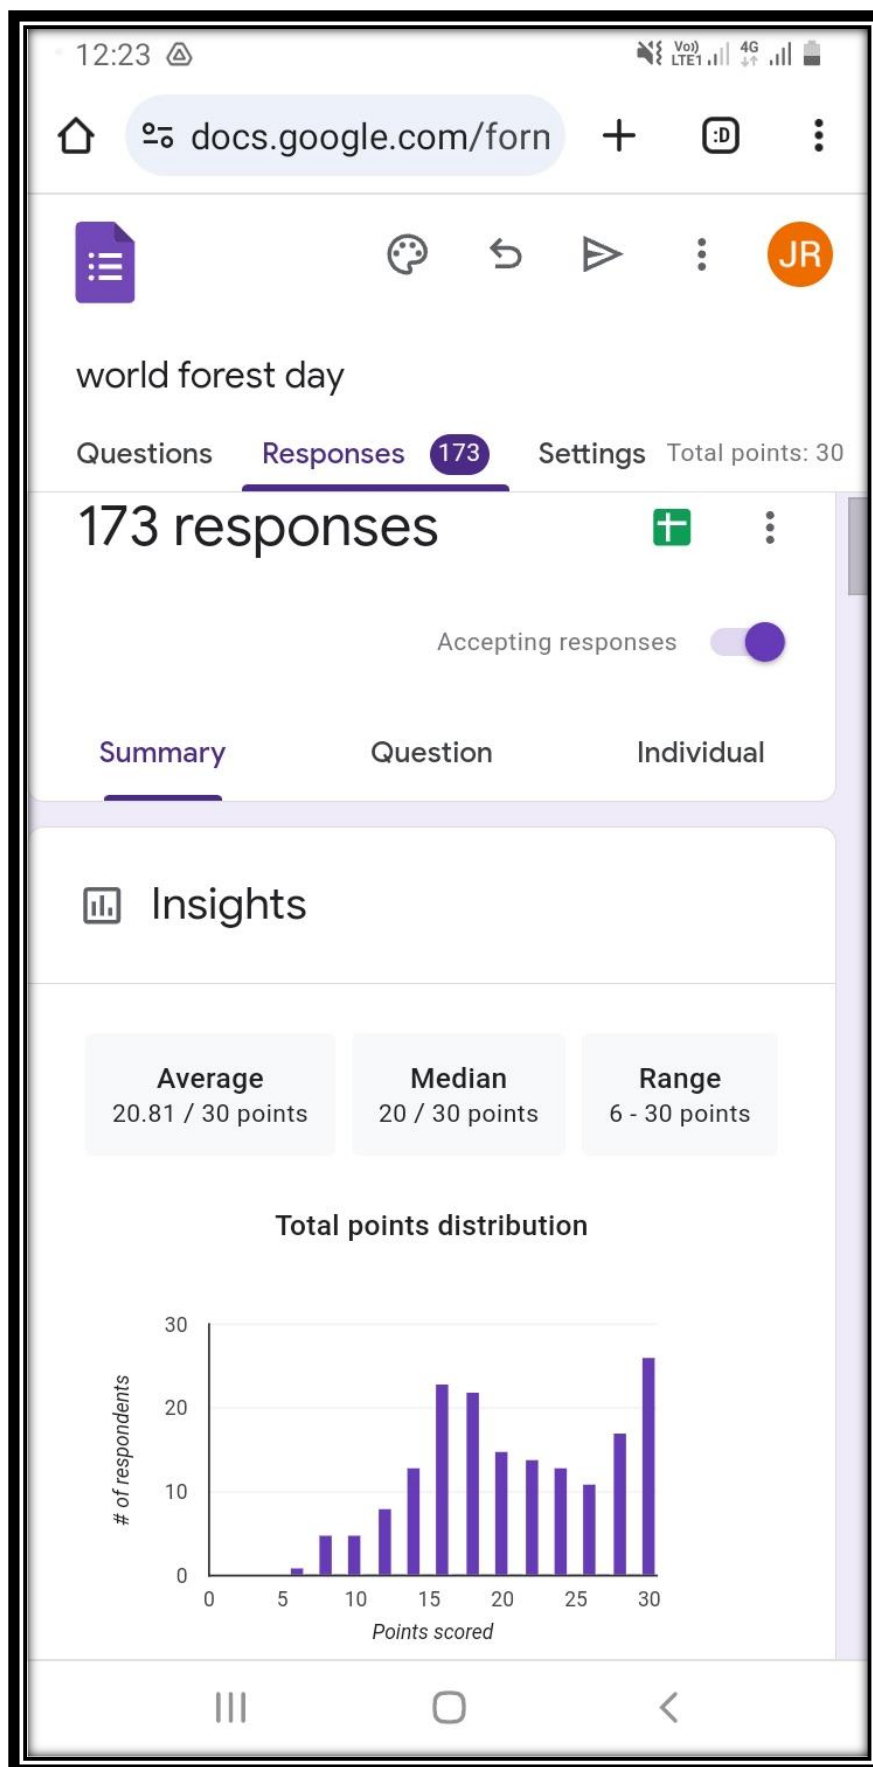

The timing of the event, on the eve of World Forest Day, added significance to the initiative, highlighting the global importance of forest conservation efforts. By organizing such an event, the Botany Department and the institution as a whole showcased their dedication to promoting environmental awareness and education.

The success of the quiz reflects not only the effectiveness of T. Jhansi Rani's initiation and Dr. N. Prasad Babu's support but also the collective effort of all participants involved. Moving forward, initiatives like this serve as crucial steps towards fostering a culture of environmental responsibility and sustainability within the academic community and society at large.

OBJECTIVES

The objectives for conducting the national online quiz on the eve of World Forest Day by the Botany Department of CSTS Government Kalasala could include:

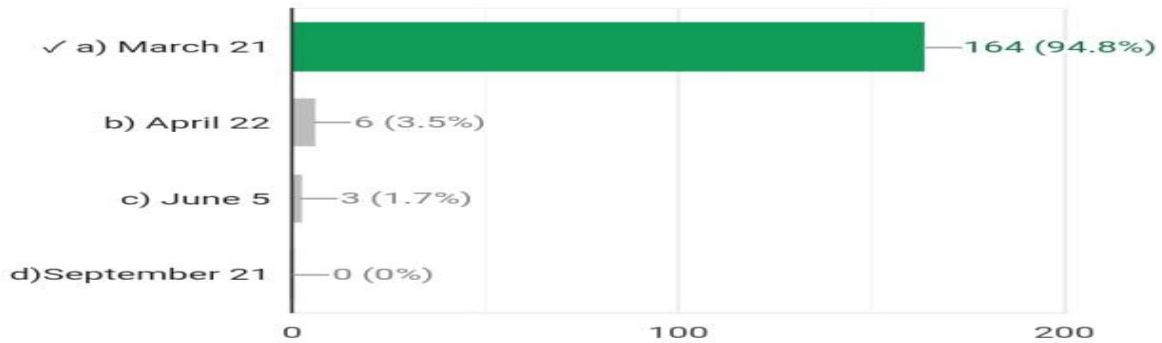

- **Raising Awareness:** To raise awareness among participants about the significance of forests in maintaining ecological balance, biodiversity, and their role in mitigating climate change.
- **Educational Outreach:** To educate participants about various aspects of forestry, including different types of forests, their importance, threats they face, and conservation measures.
- **Promoting Engagement:** To engage a wide audience in activities related to forest conservation and environmental sustainability, especially through an accessible online platform.
- **Encouraging Participation:** To encourage active participation from students, faculty, and the general public in activities that promote environmental consciousness and stewardship.
- **Fostering Interest in Botany and Environmental Sciences:** To stimulate interest among participants in the field of botany, environmental sciences, and related disciplines by providing an engaging and informative learning opportunity.
- **Networking and Collaboration:** To foster collaboration and networking among individuals and institutions interested in forest conservation and environmental sustainability across the nation.
- **Measuring Knowledge and Understanding:** To assess the knowledge and understanding of participants regarding forest ecosystems, conservation strategies, and related environmental issues.
- **Celebrating World Forest Day:** To commemorate World Forest Day by organizing an event that highlights the importance of forests and encourages proactive measures for their protection and sustainable management.

1. When is World Forest Day celebrated?

 Copy

164 / 173 correct responses

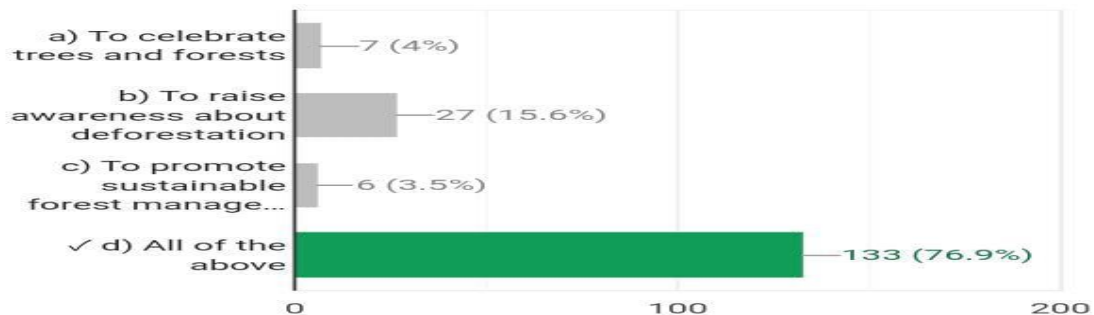

By aligning the quiz with these objectives, the Botany Department of CSTS Government

2. What is the main purpose of World Forest Day?

 Copy

133 / 173 correct responses

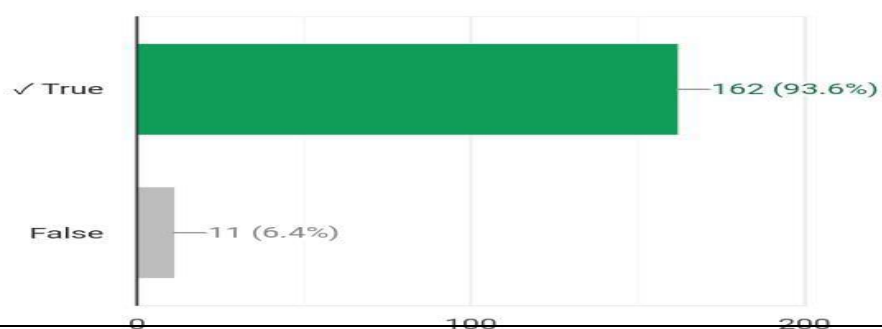

Kalasala aims to contribute to the broader goals of environmental education and conservation.

3. Forests cover about one-third of the Earth's land area

 Copy

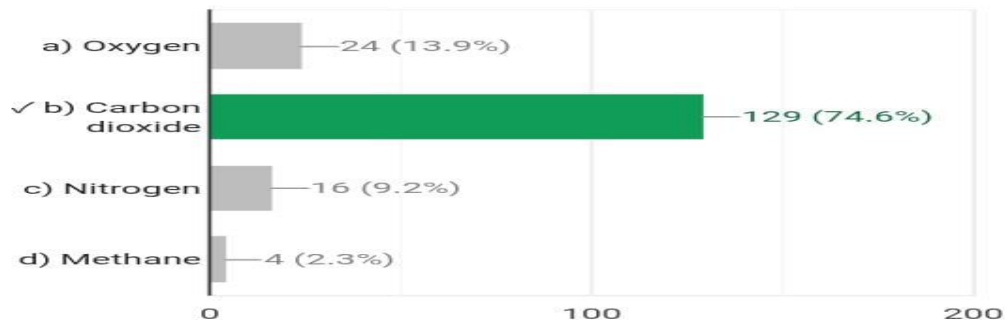

162 / 173 correct responses

4. Which gas do forests help absorb, thus combating climate change?

 Copy

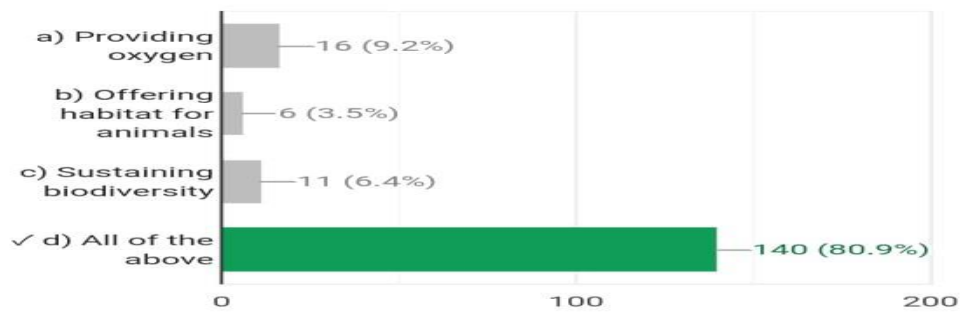

129 / 173 correct responses

5. What are some benefits of forests to humans and wildlife?

 Copy

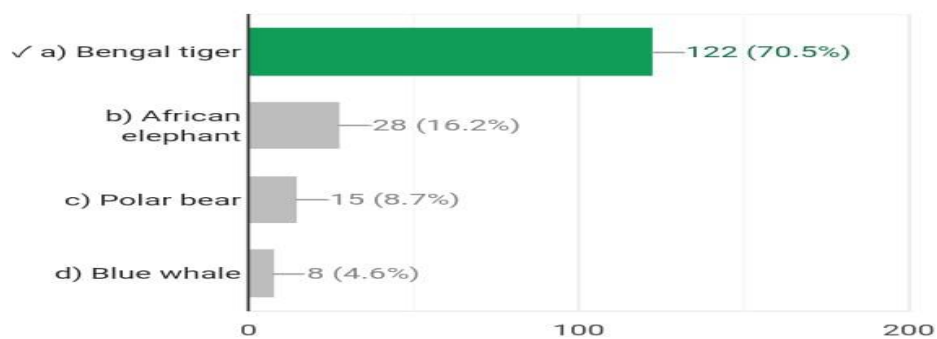

140 / 173 correct responses

6. Name one endangered species that relies on forests for its habitat

 Copy

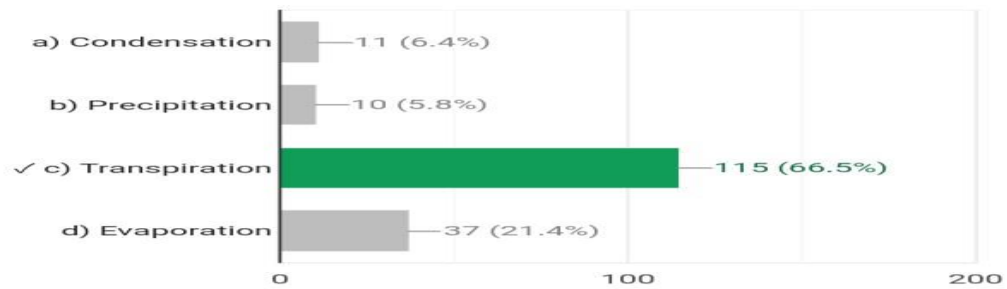

122 / 173 correct responses

7. What is the term for the process by which trees release water vapor into the atmosphere?

 Copy

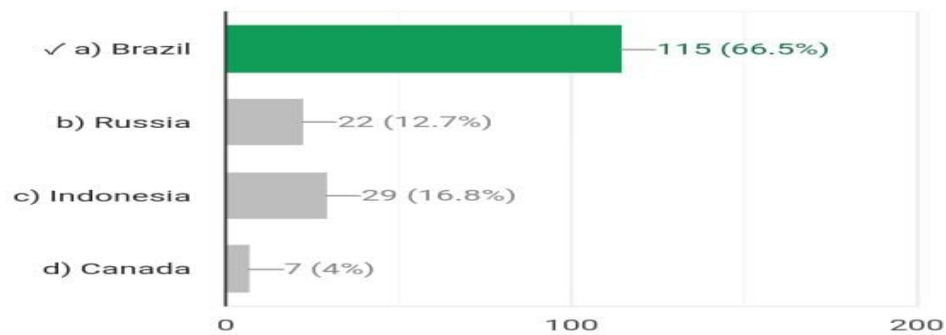

115 / 173 correct responses

8. Which country is known for having the largest area of tropical rainforest?

 Copy

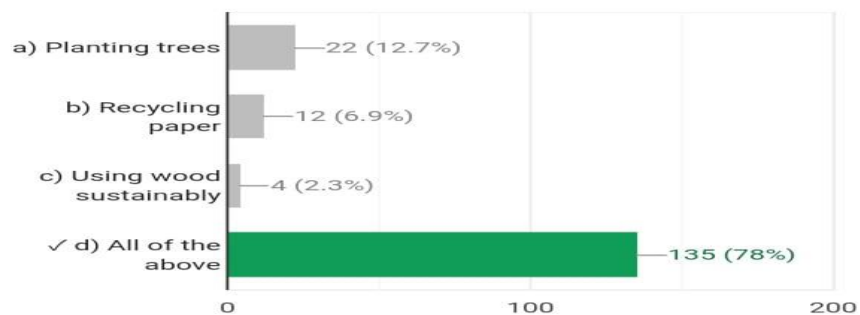

115 / 173 correct responses

9. What is one simple action individuals can take to help protect forests?

 Copy

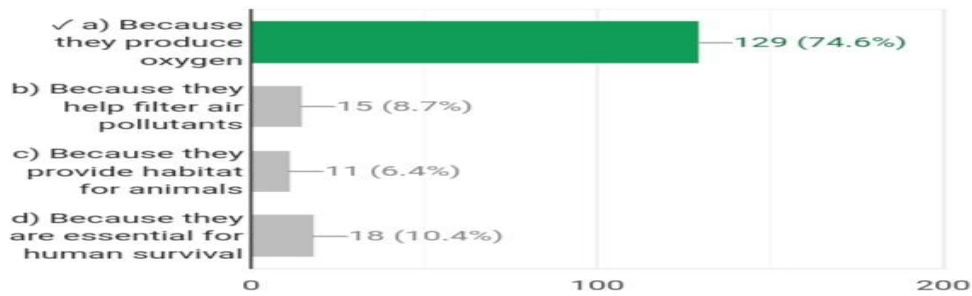

135 / 173 correct responses

10. Why are forests often referred to as the "lungs of the Earth"?

 Copy

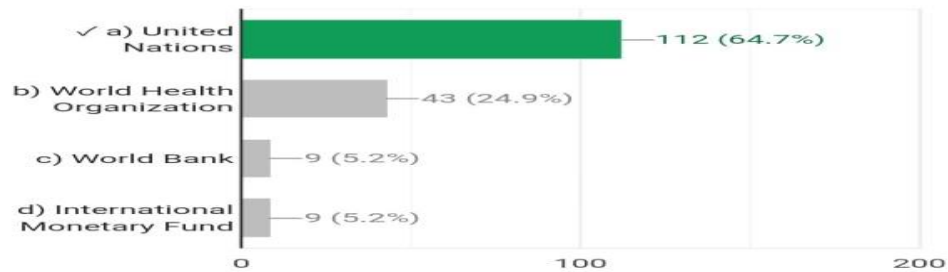

129 / 173 correct responses

11. Which international organization is actively involved in promoting forest conservation and sustainable management?

 Copy

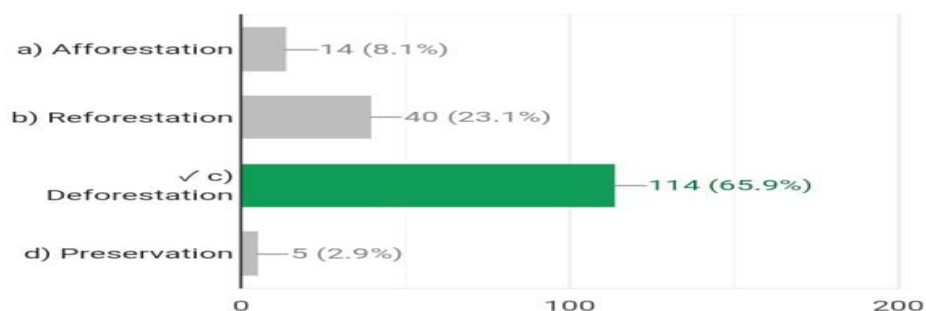

112 / 173 correct responses

12. What is the term for the practice of cutting down trees for commercial purposes without replanting or allowing the forest to regenerate naturally?

 Copy

114 / 173 correct responses

13. Which type of forest is characterized by its cone-bearing trees and is often found in colder regions?

 Copy

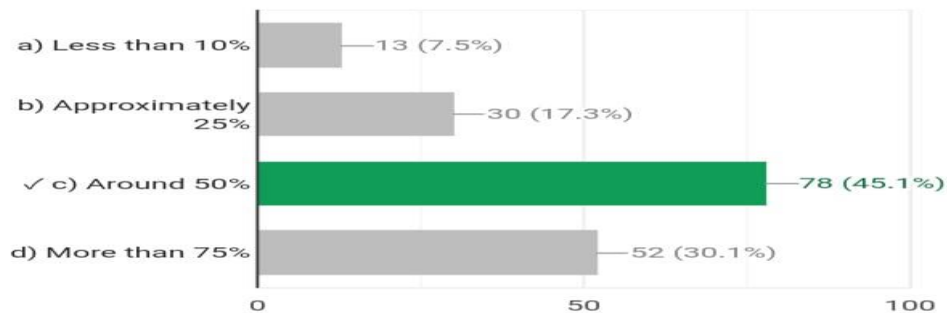

76 / 173 correct responses

14. What percentage of the world's plant and animal species live in forests?

 Copy

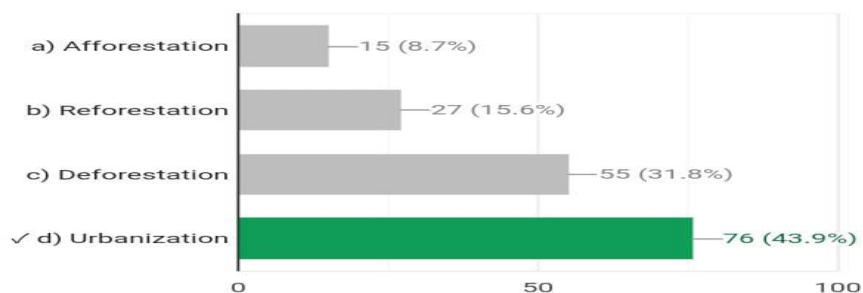

78 / 173 correct responses

15. What is the term for the process of converting forested land into non-forest uses, such as agricultural or urban areas?

 Copy

76 / 173 correct responses
